

Egnuma Gelana

Frontend Developer & Graphics Design

With 2 years of experience, I specialize in designing and developing responsive, user-focused interfaces for various industries. I have a proven track record of successfully managing complex projects from inception to delivery, increasing project success rates by 20% on average and ensuring high-quality, seamless user experiences.

● WORK EXPERIENCE

COFNets

Frontend Developer

05/2022 - Present, Ethiopia

At Cofnets, I gained valuable experience as a frontend developer, creating responsive and interactive user interfaces. I collaborated with designers and backend developers, utilized frameworks like React and Next, and followed best practices to deliver high-quality web applications. My experience at Cofnets sharpened my problem-solving skills and ability to work effectively in multidisciplinary teams.

As a Frontend Developer

Implemented responsive design for company website, resulting in 50% increase in mobile traffic and improved user experience.

- Reduced page loading time by 40%, resulting in a 25% increase in website traffic and a 15% decrease in bounce rate.

- Collaborated with cross-functional teams to develop new features resulting in 25% increase in website traffic and improved user retention.

● EDUCATION

Bachelor of Science Degree in Computer Science

Dire Dawa University • Ethiopia • GPA: 3.43 • 10/2018 - 11/2021

● CERTIFICATIONS

Produce graphics using graphic app

Engida(TA) Graphics Institute • 02/2021 - 04/2021

● Projects

Real Estate Website

• 09/2023 - 11/2023

Currently employed as a frontend developer at COFnets, where I am responsible for leading the development of the Afro Sweden Real Estate website.

Some of my key responsibilities and accomplishments include:

Implementing reusable React components to create a consistent UI framework

Designing and developing dynamic property pages utilizing Next.js

Integrating the Sanity headless CMS to power content management capabilities

Optimizing page load times and performance audits to ensure snappy responsiveness

Authoring documentation to onboard new developers onto the codebase

Mentoring more junior members of the frontend team

At COFnets, I enjoy collaborating closely with backend and design teams to deliver highly polished

features on schedule. The company's focus on technical excellence and continuous improvement

complements my passion for crafting intuitive customer-centric experiences.

Portfolio Website

Freelance • 04/2022 - 05/2022

Designed and developed a portfolio website for an architecture firm. The site showcases the firm's projects and services on visually-stunning pages built with Next.js, Tailwind CSS, and a headless Sanity CMS as the content backend. Technologies incorporated React components, Next.js dynamic routes and API calls to the Sanity APIs. Styling was handled with the Tailwind CSS utility-first framework. The result was a highly performant site that provides a personalized branding experience for the client and allows non-technical users to easily manage content. This project demonstrated advanced full-stack skills along with an eye for polished, responsive design.

KennaKoo APP

Personal • 01/2021 - 03/2022

For over a year now, I've been developing KennaKoo, a charity donation mobile app I created to help connect communities worldwide. As the sole developer overseeing this project, my focus has been designing intuitive interfaces with Flutter alongside integrating critical backend services with Firebase.

Some key features implemented within the app allow for customized donor profiles, donor form for blood request, Authentication and Authorization, Emergency support and money donation.

Recommendation Letter

To Whom It May Concern

Mr. Egnuma Gelana Neggesu:

It gives me great pleasure to write this recommendation letter in favor of Mr. **Egnuma Gelana** whom I have known as my student since January 2018 when he joined Dire Dawa University to pursue his Bsc study in Computer Science. I taught him Fundamentals of Programming II and Object-Oriented Programming courses where he scored excellent grade.

During his study, Mr. Egnuma showed his outstanding academic talent and high capability of self-learning. From my involvement with him, I found that he has an excellent inquiring mind and ability to address problems in all directions. He was highly determined, preserving and hopeful. He had a "thirst" for knowledge which is quite remarkable for an undergraduate and this is essential ingredient for a good researcher.

Finally, his final year project was "IoT based Vehicle Monitoring System" which integrates web based and Mobile application. Therefore, I was able to see his ability to deliver a clear, concise, and well-thought presentation with an excellent confidence to answer questions. He is also extremely co-operative and possesses the capacity to contribute positively while working individually and/or as part of a team.

I strongly recommend Mr. Egnuma to you without reservation. If you have any further questions with regard to his background or qualifications, please do not hesitate to contact me.

With kind regards,

Mulugeta Getachew Regassa

Letter of Recommendation

As the School Dean and a lecturer, I have had a pleasure of knowing and teaching Mr. Egnuma Gelana Negessu from 2010 – 2013 G.C. During his stay; he has been one of my best students who owned a tremendous knowledge on the discipline. He has demonstrated his innovative and verbal communication skill.

Throughout the year Mr. Egnuma was an active participant in class room. His caring nature and personality allow him to work well with others in a team setting, as he always respects others' opinions even when they differ from his own.

In general, I can say without any reservation that his combination of intelligence, and commitment, creativity and compassionate character will certainly make him a valuable member of any institution. I encourage you to look favorably upon his application. If you have any questions regarding this recommendation, please do not hesitate to contact me at tsegshi2003@gmail.com. Finally, I would like to thank you on behalf of Dire Dawa University, School of Computing for all your cooperation and consideration that you make for Mr. Egnuma Gelana Negessu.

Sincerely,

Tsegge Endeshaw Abate
